

Application For Internship

Dipta Chatterjee
Msc Data science(KU),
B.Sc. Physics(CU)
Serampore, Hooghly

17 th December, 2022

I hope you are doing well. I am writing to apply for the Project intern position role in Calcutta University. As a final year student of Msc. Data Science I had immersed myself fully from 2020 to prepare for Data Scientist positions.

I have of experience of 2 months as a research intern in Jadavpur University under Prof. Papita Das (CE) and Prof. Dipankar Das (CSE) and that of few personal and collaborated projects. I have mentioned all of my projects and internship experiences in details on my CV.

With the analytical mind that has developed in me along the way to my Bsc and MSc I am ready to apply those skills to help my organization to achieve its goal of expanding into the industry

Sincerely

Dipta Chatterjee
